

# Traditional Czech Fabrics

Střední škola designu a řemesel Kladno  
Štěpánka Vorlíčková, Pavla Svobodová

2. grade

School year: 2021/22

# Czech Republic

**Veba**  
(Broumov)

Kladno

(Moravská Třebová)

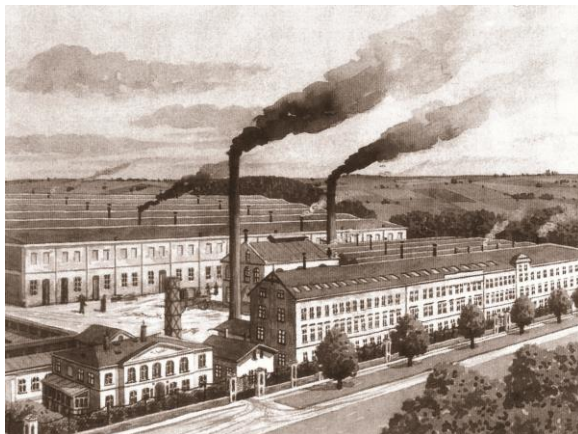

# About our school

- **In first year** we learned basics of sewing, we saw bags with a pattern that we designed and then we started doing skirts, that we also designed. We also started learning about the technology of making clothes and about fabrics.
- **In second year** we started designing and learning where and how to get inspiration. We saw trousers for ourselves and shirts or dresses as a final work. We continued learning about technology of making clothes and about fabrics.
- In third grade we are going to learn how to do lined clothing, which means we can do some vest or jacket. That is also the final work.
- In fourth grade we are preparing for graduation. We have to do 30 designs over the summer then the teachers will chose either one lined design and one not lined design or four not lined designs.

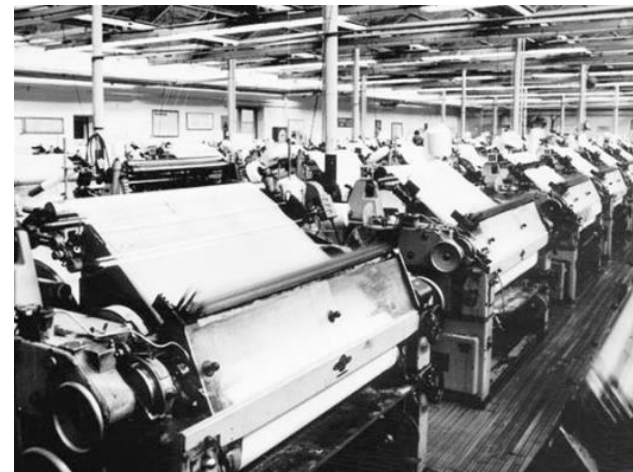

- Silk production HEDVA, a.s. is based on long-standing traditions.
- The first silk weaving and dyeing plant in the Czech lands began operations in Moravská Třebová in 1828 - it replaced the manual manufactory.
- The range of fabrics consists of natural silk
- In 1949, plants in Bohemia and Moravia dealing with silk production were concentrated in the national company Hedva.
- Since 1993, HEDVA, a.s. belongs exclusively into the hands of Czech shareholders.

- HEDVA products consist of traditionally processed materials: viscose, acetate, polyester, polyamide silk and only marginally cotton
- The product range was expanded to include polyacrylic in 2008 when HEDVA bought the "Cyr Gambier" brand from the defunct Belgian company Bekaert DT,
- Under this brand, it now supplies fabrics for garden furniture covers and prams made of this material.

**Company assortment:**

- Technical fabrics
- Decorative fabrics
- Lining fabrics
- Home and garden fabrics

# Vebea

- VEBA is a traditional Czech producer of jacquard woven cotton fabrics and is one of the most important producers in the world in this segment.
- Focuses on the production of clothing and household products.
- A top team of designers gives VEBA products a high aesthetic level that corresponds to current world trends.
- VEBA is a dynamic, growing, innovative company. With its export performance, it has consistently belonged to the elite of Czech exporters.

# Vebea

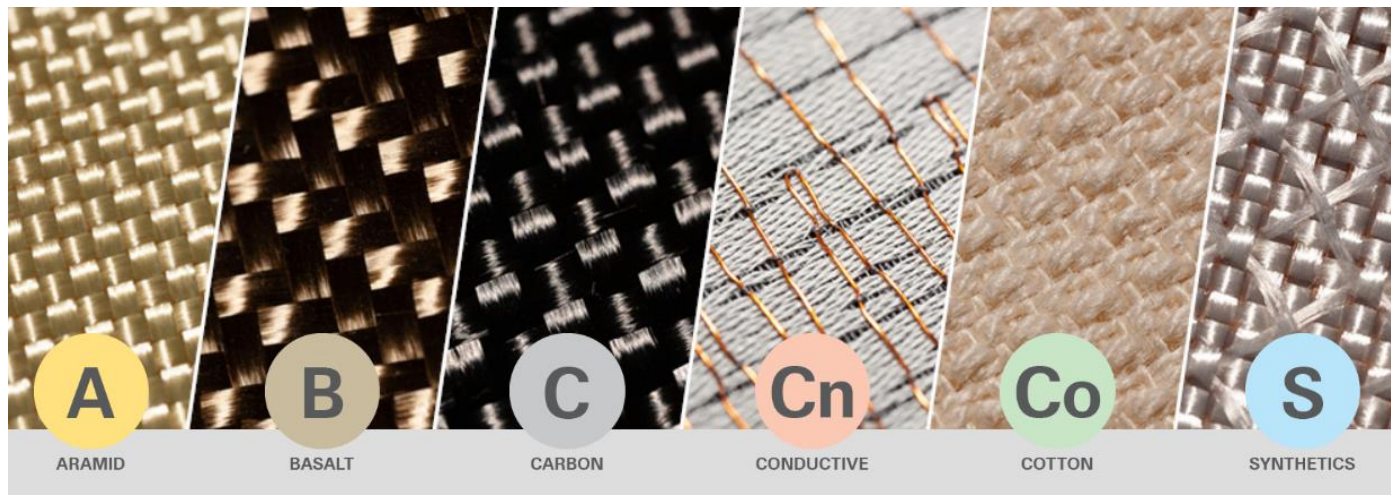

- It employs almost 900 workers in the Broumov and Policko regions and is technically and technologically at the level of the most advanced competition in the world.
- The history of VEBA follows the rich tradition of textile production in the Broumov region dating back to the 13th century.
- Today's appearance of VEBA was created at the same time as the development of industrial production in the 19th century.

# Vebea
